## Blood on the streets

Judgment is dawning!  
All this blood on the streets  
O hear this warning!  
All this blood on the streets

I need to yell it!  
All this blood on the streets  
O can't you smell it?!  
All this blood on the streets

Where will you hide (from the)  
Blood on the streets?  
Satan, he lied (now there's)  
Blood on the streets  
We must decide (with all this)  
Blood on the streets

Suspicious package  
All this blood on the streets  
Hide in the wreckage  
All this blood on the streets

People insane!  
All this blood on the streets  
We need a rain (to wash)  
This blood from the streets

Where will you hide (from the)  
Blood on the streets?  
Satan, he lied (now there's)  
Blood on the streets  
We must decide (with all this)  
Blood on the streets

Now we're at war!  
All this blood on the streets  
Worse than before!  
All this blood on the streets

It's from within!  
All this blood on the streets  
For all our sins!  
All this blood on the streets

## Burning

Another night, another city  
What's the point of sitting pretty  
When all around is burning,  
Burning, burning?

Another day, another soul  
One step closer to my goal  
And all around is burning,  
Burning, burning!

Burning, burning!  
No other way to say it  
Read the Holy Bible  
And you will discern it  
Jesus will return,  
Jesus will return  
His Word is a flamethrower  
World is gonna burn!

Another renegade with a gun  
Flying too close to the sun  
And all around is burning,  
Burning, burning!

Another seer, another lie  
Find the truth before you die  
Or all around will be burning,  
Burning, burning!

Burning, burning!  
No other way to say it  
Read the Holy Bible  
And you will discern it  
Jesus will return,  
Jesus will return  
His Word is a flamethrower  
World is gonna burn!

Yep, yep, huh-hah  
Huh-ha, huh-ha  
[Repeat]

Another meal, another hour  
Gotta overthrow Satan's power!  
Before all around is burning, burning  
Burning, burning, burning!

Burning, burning!

No other way to say it  
Read the Holy Bible  
And you will discern it  
Jesus will return,  
Jesus will return  
His Word is a flamethrower  
World is gonna burn!

Yep, yep, huh-hah  
Huh-ha, huh-ha

[Repeat]

Gotta overthrow Satan's power!  
Gotta overthrow Satan's power!  
Gotta overthrow Satan's power!  
Gotta overthrow Satan's power!

Jesus will return!  
Jesus will return!  
Jesus will return!

### **Pornography**

Why can't I have what I have seen?  
Am I alone in this dream?  
What do I do? I want to look  
I want the flesh,  
Don't want to read your book

“Son, beware,  
For the devil wants your soul  
He don't care  
About your heavenly goal  
The adulteress, the whore  
Her charms they lead to death  
Son, beware,  
Stay on the pure true path”

*Pornography*  
It's in your face  
*Pornography*  
Is a human disgrace  
*Pornography*  
Is like a leech  
*Pornography*  
Dragging you  
Till love is out of reach

*Pornography*  
It aint your friend  
*Pornography*  
Will eat you in the end  
*Pornography*  
Like an ancient curse  
*Pornography*  
Extremely vile  
And is getting worse

Gouge out your eye  
If it makes you sin  
Cut off your hand  
And throw it in the bin  
These were your directions  
To men captive to lust  
Our hearts need correction  
Though hearts, they turn to dust!

“Know that I am there  
When temptation bites  
That for your soul I care  
In the dark corners of the night”

*Pornography*  
It's in your face  
*Pornography*  
Is a human disgrace  
*Pornography*  
Is like a leech  
*Pornography*  
Dragging you  
Till love is out of reach

*Pornography*  
It aint your friend  
*Pornography*  
Will eat you in the end  
*Pornography*  
Like an ancient curse  
*Pornography*  
Extremely vile  
And is getting worse  
[Repeat]

## Kissing the devil

Can you feel the hatred  
Walking down this street?  
Now we're taking religious sides  
And none will concede defeat

The armies of the so-called Christian  
Nations warred in far-off lands  
While you were trading iPhone images  
Of British soldier blood on muslim hands

Is there an answer  
*Heaven!*  
An answer to this?  
*Heaven!*  
Remember the LORD  
Betrayed with a kiss?

The kingdom of heaven  
*Heaven!*  
The kingdom is here  
*Heaven!*

But you were kissing the devil

The Bible is out  
And 'Gay marriage' is in  
You people making the big decisions –  
You drowning in your sins

There's temples to foreign gods on every  
corner  
The church gates they are chained  
Can't get involved in civilian affairs  
I am registered insane

Is there an answer

*Heaven!*  
An answer to this?  
*Heaven!*  
Remember the LORD  
Betrayed with a kiss?  
The kingdom of heaven  
*Heaven!*  
The kingdom is here  
*Heaven!*  
But you, you were kissing the devil

Perversion, perversion!  
Is what the people crave  
Feed them a library of lies  
And the people won't be saved

What did you expect  
When you betrayed the Creator?  
You were never a united kingdom  
You're a rabble of God haters!

Is there an answer  
*Heaven!*  
An answer to this?  
*Heaven!*

Remember the LORD  
Betrayed with a kiss?

The kingdom of heaven  
*Heaven!*  
The kingdom is here  
*Heaven!*

But you were kissing the devil  
[Repeat]

## Men of violence

O how I despise the work of your hands  
Why you make it I don't understand  
You worship Satan, you are his friends  
You men of violence!

Your hearts are full of torture and pain  
You make your movies for selfish gain  
On earth you are a filthy stain  
You men of violence!

Woe to you on reckoning day!  
When your shameful names are called  
For eternity you'll all be chained  
To chairs in the dungeon of hell

You're all sadists with perverted minds  
Treating beauty like bacon rind  
You don't belong to human kind  
You men of violence!

May Hollywood's men of violence burn!  
They've had their say, now it's Jesus' turn  
Your movies make the stomach churn  
Men of violence!  
Woe to you on reckoning day!  
When your shameful names are called  
For eternity you'll all be chained

To chairs in the dungeon of hell  
Woe to you in Beverley Hell!  
Woe to you for the misery you sell!  
You think it's fun to hurt and to kill?  
Men of violence!

### Olanzapine clipboard

Olanzapine clipboard  
Made of plastic  
Olanzapine clipboard  
Another statistic  
Olanzapine clipboard  
In the pharmacy  
Olanzapine clipboard  
Evil you see?  
Pharmaceutical 'industry'  
You'll burn in eternity!  
Pharmaceutical 'industry'  
O LORD, have mercy!  
You have the cure  
But you close the door

You have the cure  
Cries you ignore  
You patent your 'creations'  
You make a profit  
You patent your 'creations'  
The LORD will stop it  
Pharmaceutical 'industry'  
You'll burn in eternity!  
Pharmaceutical 'industry'  
O LORD, have mercy!

What d'ya make last year?  
In your shiny, white lab?  
What d'ya make last year?  
I'll see you on the slab

### Burning love

I'm on the street  
Once again  
And all these people  
They ain't my friends  
My mind's made up  
I am resolved  
But I got a big, big  
Problem to solve  
I got a burning, burning love!  
I got a burning, burning love!  
I got a burning, burning love  
For you, for you!  
I gave my best  
Gave all I had  
But I just ended up  
Feeling bad  
I never took a life  
I gave my heart

I never used that knife  
But I'm back at the start  
I got a burning, burning love!  
I got a burning, burning love!  
I got a burning, burning love  
For you, for you!

People told their lies  
About me everywhere  
But they'll all burn  
And I don't care  
People are so mean  
Ain't that the gospel truth?  
I know now what I gotta do

I got the fuel  
For the fire  
I'm gonna burn  
This wicked city to the ground  
I got the Word of God

Locked in my heart  
Then I'll disappear  
Without a sound

I got a burning, burning love!  
I got a burning, burning love  
For you, for you!  
[Repeat]

I got a burning, burning love!

### **Lust outside the mosque**

World in decay  
Love the only way  
Hear people say  
It's okay to be gay  
There's lust outside the mosque

Hatred gonna burn  
Wrath will have His turn  
For heaven we do yearn  
Love we all must learn  
They're lost outside the mosque

Gotta carry our cross  
No matter the cost  
It ain't cool to be lost  
Satan ain't the boss  
There's lust outside the mosque

We're baptising souls  
To make the half-man whole  
Retrieve what Satan stole  
Jesus ain't no fool  
There's lust outside the mosque

### **The love of money**

What on earth  
Do you think you're doing,  
Abandoning everything  
That you've learned?  
Don't you realise  
You can get through this?  
That the LORD is gonna return?!

Loyalty cards  
Won't get you to heaven  
Who wants to join  
Their filthy club?  
The love of gold  
The root of all kinds of evil  
So bow down  
To the LORD above!

Evil world is gonna burn!  
Evil world is gonna burn!  
Evil world is gonna burn!  
Wrath will have His turn!

Evil world is gonna burn!  
Evil world is gonna burn!  
Evil world is gonna burn!  
Wrath will have His turn!

Why do you think the world's already on  
fire?

*The love of money*

Would you ignore me, would you call me  
a liar?

*The love of money*

So many souls already weeping in hell!

*The love of money*

Evil is hunting your soul for himself

*The love of money*

Burn! Burn!

Burn! Burn!

Why do you think the world's already on  
fire?

*The love of money*

Would you ignore me, would you call me  
a liar?

*The love of money*

So many souls already weeping in hell!

*The love of money*

Evil is hunting your soul for himself

*The love of money*

[Repeat]

## Sleep, world, sleep

Eat your chicken  
And eat your fries  
Eat your children  
And eat your lies  
Eat your honey  
And eat your bread  
Eat your money  
Till I eat you dead

The sky is gone  
I created it blue  
How can I  
Get through to you?  
For sex with infants  
You lust and yearn  
You think it's fun  
But you're gonna burn

Sleep, world, sleep  
Wake up in the devil's fire!  
Sleep, world, sleep  
Wake up in the devil's fire

I look around  
This ghastly place  
Where men have the devil's seed  
On their face  
I look around  
For just one soul  
But everyone  
Is shovelling coal

The trees are screaming  
The wagtails flee  
The devil is stealing  
What belongs to me  
I hate this earth  
For man-made reasons  
You take our breath  
With chemical poisons

Sleep, world, sleep  
Wake up in the devil's fire!  
Sleep, world, sleep  
Wake up in the devil's fire!

Put me in a test tube  
Richard D

I'll burn burn you  
Just wait and see  
Argue me into  
Nothingness  
All you boffins  
Like snakes you hisssssssssssss

Philosophy  
Won't cut it, No!  
Eternity  
Is His glory show  
You'll burn, you'll burn  
You tiny ants  
You think He  
Made it all by chance?

Sleep, world, sleep  
Wake up in the devil's fire!  
Sleep, world, sleep  
Wake up in the devil's fire!

I see a rainbow  
I see a scar  
I see you all  
Mangled in your cars  
I see you whores  
Seducing men  
Ashtoreths bigger  
Than Big Ben

D'yet get me, Gunshot  
D'yer get me, blood?  
D'yer get me, you  
Hiding under that hood!?  
The seagull yelps  
The crow's concerned  
You'll whisper 'Help!'  
But you're gonna burn

Sleep, world, sleep  
Wake up in the devil's fire!  
Sleep, world, sleep  
Wake up in the devil's fire!  
[Repeat]
